for Retirement Provision

## INTRODUCTION

Dear Ladies and Gentlemen,

The European Federation for Retirement Provision (EFRP), the leading voice on workplace pensions in Europe, is pleased to invite you to the 2010 European Pension Funds Congress which will take place on 16 November 2010 in Frankfurt am Main as part of the 13th EURO FINANCE WEEK.

This year the conference coincides with the closing of the Commission's consultation on the **Green Paper on the future of pension systems in Europe**. Frankfurt will be the place to take stock of the four-month-consultation period. Top level European pension experts will share their views on how Europe can contribute to the member states' challenge of delivering adequate, sustainable and affordable pensions.

We have also reserved time to discuss **DC pension provision** in Europe. We will be looking at member states' practices of structuring the investments and the default scheme. The session will also provide an opportunity to learn how DC pensions are structured across the Atlantic.

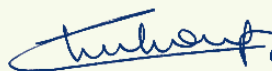

The conference will also look at an important topic that until now has been understated in the public debate on pension systems: the contribution of pension institutions to **financial stability**. The session will focus on the systemic risk benefits that pension institutions can bring to the financial system. Simultaneously, pension institutions also contribute to economic growth providing European companies the necessary capital to finance growth and innovation.

We are proud that Mr. Georg Fischer, Director Social Protection and Integration at the European Commission's DG Employment, Social Affairs and Equal Opportunities and Mr. Karel Van Hulle, Head of Unit Insurance and Pensions at the DG Internal Market and Services, have accepted to deliver a keynote speech at the conference.

We would be pleased if you could join us in Frankfurt.

Ángel Martínez-Aldama  
Chairman EFRP

Chris Verhaegen  
Secretary General EFRP
